SUNNDARI ARTIST APP - API LIST

1. ALREADY WORKING (no work needed)

- Login, register, OTP (email and phone), Google login, forgot / reset password
- Artist profile get / update
- Portfolio: add, view, edit, delete
- Packages: add, view, edit, delete
- Services, locations, weekly schedule, blocked dates
- User profile and addresses
- Core lists (categories, sub-categories, statuses, location types)
- Bookings: list, details, accept / decline, on my way, arrived, start code, finish code
- Notifications, chat, help center

2. MISSING - NEEDED BEFORE LAUNCH

1. KYC and bank details - please confirm both endpoints are live. The app calls them, but they may not exist yet.
2. Different ID types - KYC should accept id_type (aadhaar / voter_id / passport / driving_licence), id_number, front image, back image. Today only Aadhaar fields exist.
3. Registration fields - full name, display name, date of birth, Instagram link, address, profile type (freelance / studio), experience, specialities, and up to 5 work photos for admin review.
4. Profile photo and cover photo upload - with URLs returned in profile get.
5. Artist page review - submit page, get status (submitted / changes_required / approved), admin feedback list, resubmit.
6. Payouts and earnings - earnings summary (gross, platform fee, adjustments, net, paid out, pending) and payout history (date, amount, status).
7. Package extra fields - category, makeup type, brands, product details, service photo.
8. Add-ons (extra services) - create, list, edit, delete, with the packages they apply to.
9. Service areas and travel charges - cities covered, free or extra charge, amount, per visit / per km.
10. Reschedule a booking - request new date and time, client confirm / reject.

3. MISSING - CAN COME AFTER LAUNCH

1. Reviews and ratings - list of reviews and a reply option.
2. Business insights - bookings, earnings, repeat clients, most booked services, profile views.
3. Brands list - managed by admin, plus a request to add a new brand.
4. Partner agreement - save that the artist accepted Terms and Privacy (with date).
5. Accepting bookings switch - on / off saved in profile.
6. Help center tickets - many tickets with status, booking id, issue type, photo attachments.
7. Booking money and travel fields - platform fee, net amount, travel time before, return buffer, add-ons chosen.
8. Public profile link - to share the artist page.
9. Review a customer - artist rates a customer after a booking.
10. Terms, Privacy and Contact pages - links or content.

11. Small ones - profile view counter, portfolio reorder, My Clients list with notes, Marketing Studio content generation, service styles list.

4. SAVED ONLY ON THE PHONE RIGHT NOW

Admin and customers cannot see these, and they are lost if the app is reinstalled:
- Date of birth, display name, specialities, address, profile type
- Profile photo, cover photo, service photos
- Add-ons, service areas, travel charges
- Portfolio order, agreement accepted, reviews written about customers
